

EMMANUEL
COLLEGE

The  of Boston

Where is the Heart of Boston?

It's at 400 The Fenway—Emmanuel's residential campus on 17 acres inside one of the most consequential few miles in the country, where medicine, research, culture, and industry keep working hours right alongside campus.

Here, a rigorous academic experience meets a city that's always mid-motion — students don't wait for Boston to become relevant to their major; it already is, from day one.

It's more than a place. It's a sense of belonging: Boston's institutions are part of who Emmanuel is, and Emmanuel is part of the life of the city it calls home.

CURRICULUM RECOMMENDATIONS

We look for applicants who have a strong academic preparation. We recommend that students have completed the following courses in high school:

- English: 4 years
- Mathematics: 3 years, including Algebra II*
- Social Studies: 3 years
- Laboratory Sciences: 3 years

**We recommend four years of mathematics and science for a student considering college study in Business, Chemistry, Mathematics and Nursing.*

APPLICATION REQUIREMENTS

A completed application for admission should include:

- Common Application and essay
 - Official secondary school transcript or GED scores
 - One letter of recommendation (either from a school counselor or a teacher in a core subject)
 - Interview (Recommended, but not required)
 - SAT or ACT scores (optional)
- Read more about Emmanuel College's Test-Optional policy at www.emmanuel.edu/testoptional.*

Colleges of the Fenway

Emmanuel College is a member of the Colleges of the Fenway (COF) consortium with Massachusetts College of Art and Design, MCPHS University, Simmons University and Wentworth Institute of Technology. Through the COF, Emmanuel students enjoy the best of both worlds: living and learning in a small college setting while enjoying the resources of a larger academic environment. Students are able to multiply both their educational and social opportunities exponentially by cross-registering for classes, participating in joint student groups and intramural teams and by attending hundreds of events and performances on neighboring campuses.
